# A century of innovation

For over 130 years, YORK® has the played the leading role in creating environments that are ideal for people to live and work in - environments that are both extraordinarily innovative and exceptionally reliable. With more than 130 years' experience in heating, ventilation, air-conditioning, and refrigeration (HVAC&R) product and services, YORK's array of air conditioners provides the ultimate comfort for your home and office by creating a cool, quiet and dry living environment.

YORK® was established in 1874 in York, Pennsylvania, and has gone on to claim several significant firsts in design and innovation over the years. Now a Johnson Controls brand, YORK® leverages on its deep understanding of temperature control and heritage of cutting-edge research to provide the best temperature control solutions available around the world today.

## Smart Control

Customers can take more effective control of their air-conditioners with a variety of technology tools available for our units.

Our advanced suite for control solutions include: touch screen and touch key controllers, smart home connection and building automation systems using the Metasys® software.

Johnson Controls

# CONTROLS SOLUTIONS

| Photo | Name | Model | Function | Application |
